

A MESSAGE FROM DUCHENNE SAN DIEGO

"On behalf of the Board of Directors and the Event Leadership Committee, I would like to thank you for being part of Kick for a Cure. Our collective dedication is generated by a Cause that is very close to our hearts because ALL of us who volunteer our time behind the scenes of the organization and event are either family members of, or have become close friends with someone who is part of the Duchenne Community. Our hope is that we inspire you to join our mission of positively contributing to the human experience of others; our promise is that you will enjoy the gift of giving to those in need; our vision is to create a legacy that will forever honor all those whose lives have been touched by Duchenne. Embrace this opportunity to not only DO something for a good cause, but BE the cause of something great..."

Our sincerest thanks,

helene

Helena Jayasuriya
Executive Director, Duchenne San Diego

A MESSAGE FROM PENINSULA WOMEN'S SOCCER LEAGUE

Peninsula Women's Soccer League is proud to co-host the 2011 Kick for a Cure Charity Soccer Tournament & Family Festival! We are honored to have this opportunity to support Duchenne San Diego's mission, and in turn, those who need our help. Bringing together the soccer community for this tournament is a great way to combine our passion for the game with awareness for an important local cause. PWSL is excited to partner with DSD and you to make this year's Kick for a Cure the best tournament yet. See you on the pitch!

From the PWSL Board of Directors

ABOUT DUCHENNE MUSCULAR DYSTROPHY

Although there are over 20 genetic muscle disorders collectively known as "Muscular Dystrophy," Duchenne is the most prevalent, affecting one in every 3,500 boys worldwide. With Duchenne, muscles slowly deteriorate due to a faulty gene that inhibits the production of dystrophin, the all important building block of muscle. The result is a weakening of ALL the muscles in the body, including those of the heart. By age 10, boys with Duchenne need to use a wheelchair to get around and eventually will lose their independence. To date there is no cure, but we believe that with your help we can all make a difference.

ABOUT DUCHENNE SAN DIEGO

Duchenne San Diego is a 501(c)(3) non-profit charity organization (Tax ID# 68-0643959) whose mission is to work with individuals and organizations in the San Diego region and beyond to positively impact the lives of children and young adults with DMD. Duchenne San Diego is San Diego's only charity that exclusively focuses on DMD. Money that is raised by our organization is used to fund high impact research, to sponsor local families to access the latest information on treatment and care options for Duchenne, and to assist the local Duchenne Community in securing needs and services that will add to their quality of life. Duchenne San Diego was founded by family members of children who live with Duchenne and is currently managed and operated entirely by volunteers.
